

DHI-ISC-ETR1-2528-B

RF Label

- Small size, easy to paste on the product.
- Superior anti-theft performance.
- Convenient use.

Introduction

The RF label can be used in supermarkets, shopping malls and other stores. The label is attached to the commodities. If the customer finishes check-out, the label will be deactivated; If leaving without check-out, the alarm of the antenna will be triggered by the label that has not been deactivated to remind the staff.

Features

Easy Installation

The label is small in size and comes with glue for easy installation on the commodities.

Superior Anti-theft Performance

When the commodity is not checked out, the alarm will be triggered to prevent the theft of commodities.

Scene

Suitable for supermarkets, shopping malls and more.

Technical Specification

Performance

Model	DHI-ISC-ETR1-2528-T	DHI-ISC-ETR1-2528-B
Material	Plastic, paper, aluminum foil and glue	
Certificate	Conform with RoHS Directive 2011/65/EU, 2015/863/EU and REACH regulations as defined in EC No 1907/2006 and subsequent amendments.	

General

Bare Machine Dimensions	25 mm × 28 mm (0.94"× 1.10")	
Outer Box Dimensions	260 mm × 260 mm × 175 mm (10.24"× 10.24"× 6.89")	
Net Weight	5.7 kg (12.57 lb)	
Gross Weight	6 kg (13.23 lb)	
Color	Transparent	White
Packaging	Carton	

Environmental Constraints

Operating Temperature	<40 °C (<104 °F)
